SECOND QUARTER FINANCIAL RESULTS

(Note: All dollar amounts in this news release are expressed in U.S. dollars except as otherwise noted. The financial results are prepared using the recognition and measurement requirements of International Financial Reporting Standards, except as otherwise noted, and are unaudited.)

Fairfax Africa Holdings Corporation (TSX: FAH.U) announces a net loss of \$16.2 million in the second quarter of 2019 (\$0.27 net loss per diluted share), compared to a net loss of \$41.8 million in the second quarter of 2018 (\$0.80 net loss per diluted share), reflecting net unrealized losses on investments in the quarter.

Highlights in the second quarter of 2019 included the following:

- Net loss of \$16.2 million included a net change in unrealized losses on investments of \$22.4 million, principally from a decrease in the market prices of the company's investments in public companies Consolidated Infrastructure Group (\$16.3 million) and Atlas Mara (\$8.3 million), partially offset by an increase in the fair value of the company's private investment in Nova Pioneer bonds (\$0.9 million).
- In the second quarter of 2019 Fairfax Africa completed its remaining investment commitment in Nova Pioneer and invested \$5.7 million, comprised of secured debentures and 572,707 Nova Pioneer warrants.
- During the second quarter of 2019 the company purchased for cancellation 580,090 subordinate voting shares, under the terms of the normal course issuer bid, for a net cost of \$4.7 million (\$8.05 per subordinate voting share).
- At June 30, 2019 common shareholders' equity was \$547.7 million, or book value per share of \$9.05, compared to \$603.1 million, or book value per share of \$9.60, at December 31, 2018, a decrease of 5.7% primarily related to a net loss in the first six months of 2019.

Subsequent to June 30, 2019:

- On July 19, 2019 the AGH Facility was fully repaid in cash with the company receiving \$13.4 million (186.7 million South African rand) (inclusive of accrued interest and raising fees).

There were 61.0 million and 52.4 million weighted average common shares outstanding during the second quarters of 2019 and 2018 respectively. At June 30, 2019 there were 30,520,463 subordinate voting shares and 30,000,000 multiple voting shares outstanding.

Fairfax Africa's detailed second quarter report can be accessed at its website www.fairfaxafrica.ca.

In presenting the company's results in this news release, management has included book value per basic share. Book value per basic share is calculated by the company as common shareholders' equity divided by the number of common shares outstanding.
